GRADY-WHITE CANYON 326

The Canyon 326 is a standout center console that seamlessly blends offshore fishing performance with comfort features, making it equally inviting for family days on the water. Built on Grady-White's exclusive SeaV²[®] hull, it delivers a smooth and confident ride offshore, even in tough conditions. For anglers, the 38-gallon livewell, expansive rigging station, and oversized transom fish box provide serious capability, while three deluxe helm chairs ensure comfort on long runs. At the same time, plush bow seating, a spacious console with stand-up head and sink, and a full-height glass windshield highlight the Canyon 326's family-friendly side.
